

Reporting and Assessment at Chew Valley School 'At A Glance'.

At each monitoring point, your child will be awarded an attainment grade as well as scores for their attitudes towards their learning. Please see below for what these grades and scores mean.

Y10 receive one grade per subject on their reports:

- Current Working Grade (CWG) - based on all **current** evidence and using the teacher's professional judgement this is the grade the student is currently working at.

Y8-10 will receive one grade per subject on their reports, known as the current working grade (CWG). NB: for the first report Y7 students will receive attitude scores only.

- Y8+9 Current Working Grade (CWG): - this is an age-related single grade based on Table I below.

Table I:

Grades 7-9	Students awarded grades 7-9 demonstrate advanced knowledge and understanding of the key age-related content and skills for that subject. They are likely to be able to apply knowledge and skills to a range of problems within the subject.
Grades 4-6	Students awarded grades 4-6 are demonstrating a secure understanding of the key age-related content and skills for that subject. Students in this range will have a good understanding of concepts and knowledge and usually need to develop their ability to apply it further.
Grades 1-3	Students awarded grades 1-3 are working towards demonstrating a fully secure understanding of the key age-related knowledge and skills for that subject. They should continue to develop their retention of key content and practise how best to apply it.
